EXPERIENCE

CI&T

Android Engineer

Remote

Sep 2024 - Present

- Developed high-traffic [Bradesco Empresas e Negócios](#) app with 100k+ downloads for a major financial institution, Bradesco. Implemented using **Clean Architecture (Data, Domain, Presentation layers) and MVVM** to improve modularity, testability, and long-term maintainability. For UI we used **Compose + LiveData/Flow**
- Developed document capture and facial biometric flows using Kotlin, enabling users to open bank accounts digitally with identity verification.
- Enhanced a hybrid application's capabilities by creating a custom JavaScript interface to grant web components access to native Android features (such as SharedPreferences, push notification etc).
- Automated tests with Appium and Selenium to increase application stability.
- Unity test with Robolectric and Espresso.

NTT Data

Android Engineer

Remote

Apr 2022 - Jul 2024

- Engineered and maintained high-scale banking applications for Itaú ([Itaú Empresas](#)), serving over 5 million users, utilizing **MVVM, Clean Architecture, and reactive programming**. (UI Compose) to enhance code maintainability and responsiveness.
- Implemented **Kotlin Flow/StateFlow** to handle asynchronous data streams and UI updates.
- Developed "My Receivables" and "Cash flow" SDKs at [Itaú Empps](#) to summarize users income and outcomes, reducing call center costs. Both features with automated testing (Appium, Selenium).
- Managed CI/CD pipelines with Jenkins to automate build and deployment processes, increasing development velocity.

Unique Sistemas

Mobile Developer

Remote

Dec 2020 - Apr 2022

- Developed and maintained cross-platform mobile applications for Android and iOS using React Native, improving user experience and accessibility across platforms.
- Translated UI/UX designs into pixel-perfect, functional screens by building and implementing high-fidelity prototypes from Figma, ensuring design consistency and usability.
- Successfully managed the full application lifecycle: building, testing, and publishing applications to the Google Play Store, achieving two live products: a Bluetooth-integrated parking lot management app that streamlined vehicle control operations, and Cerveja Certa, an intelligent beer calculator app that helps users make cost-effective choices.

SKILLS

Programming languages: Kotlin, Java, TypeScript and JavaScript.

Proficient: Android, React, Jetpack Libraries, Jetpack Compose, KMP, AWS, **Clean Architecture**, MVVM, **Kotlin Flow / StateFlow**, Retrofit, OkHttp, Room, Espresso, JUnit, Robolectric, Coroutines, Koin, Dagger, Hilt, Firebase, React Native, JavaScript, TypeScript, React Testing Library, Material UI, MUI, Tailwind, Bootstrap, HTML, CSS, API Rest, RestFul, SQL, Microsoft SQL, PostgreSQL, MySQL, Git, GitHub, Gitlab, Linux.

Intermediate: React Query, GraphQL, CI/CD, Postman, Insomnia, UI/UX, NPM, Yarn, Docker, Styled Components, React Router, Python, SOLID, Bash, Figma, Jira, Scrum, Kanban.

EDUCATION

Bachelor's Degree in Mathematics

Universidade Federal Rural de Pernambuco (UFRPE)

Jul 2017 – 2025

- Strong foundation in analytical thinking, statistics, and problem-solving
- Experience with Python and R for data analysis and computational tasks
- Applied mathematical concepts to real-world problems and algorithmic thinking
- Contributed to the Pymat project (<https://pymat.com.br>), bridging mathematics and computer science using Python

LANGUAGES

- Portuguese: Native
- English: B2 (Upper-Intermediate)
- Spanish: Basic

CERTIFICATIONS

- Cloud
 - AWS Certified Cloud Practitioner (CLF), Jun 25, 2023
- AI & LLMs (Anthropic Claude)
 - Building with the Claude API — Apr 2026
 - Claude Code in Action — Apr 2026
 - Introduction to Agent Skills — Apr 2026
 - Introduction to Model Context Protocol — Apr 2026
