## PROFESSIONAL SUMMARY

Senior Android Engineer with 5+ years of experience designing, developing, and maintaining large-scale mobile applications in the banking and financial services industry. Strong expertise in **Kotlin, Java, Android SDK, Jetpack Compose, Android Architecture Components, Clean Architecture, MVVM, Coroutines, Kotlin Flow**, and **automated testing**. Contributed to enterprise banking applications for **Itaú** and **Bradesco**, supporting millions of users and mission-critical financial workflows.

## EXPERIENCE

### CI&T

Senior Android Engineer | Remote | Sep 2024 - Present

- Developed and maintained the [Bradesco Empresas e Negócios app](#) (1M+ users) using **Kotlin, MVVM**, and **Clean Architecture**, focusing on clean code principles and scalable architecture. Mentored junior developers and participated in code reviews to ensure high quality and standardization.
- Architected and implemented the digital account opening flow using **Jetpack Compose, Material Design, Kotlin Coroutines**, and third-party **SDKs** for document capture and facial biometrics.
- Implemented Tap on Phone (Cielo) functionality, converting Android devices into **NFC**-based payment terminals.
- Developed hybrid features using **Jetpack Compose, ViewBinding/XML**, and **WebView**, implementing **JavaScript** bridges for seamless native-web integration.
- Improved product stability by automating **E2E/BDD** tests with **Appium** and **Cucumber**, leveraging **Koin** for **Dependency Injection** and supporting **CI/CD** workflows.

### NTT Data

Android Engineer | Remote | Apr 2022 - Jul 2024

- Provided technical leadership for the [Itaú Empresas](#) app (5M+ users), leveraging **Kotlin, Coroutines, Flow, MVVM**, and **Clean Architecture** to drive architectural evolution and high performance.
- Developed the My Receivables and Cash Flow features, enabling business customers to monitor receivables and cash movement through scalable **Kotlin** solutions built with **MVVM** and **Clean Architecture**.
- Evolved a **multi-module architecture** (feature, domain, and data modules) using **MVVM, Clean Architecture, Dependency Injection, SOLID** principles, and reusable components to increase testability and reduce build times.
- Developed payment and transfer journeys using Jetpack Libraries, **Jetpack Compose, Material Design, Retrofit**, and **Room**.
- Managed **CI/CD** pipelines with Jenkins to automate build, testing, and deployment, increasing delivery speed.
- Integrated **REST** and **GraphQL** APIs, implementing secure **OAuth 2.0** authentication (**JWT**) and **offline-first** persistence with **Room**.

### Unique Sistemas

Mobile Developer | Remote | Dec 2020 - Apr 2022

- Developed and maintained Android and iOS applications using **React Native**, managing the full product lifecycle from prototyping in **Figma** to publishing on the Google Play Store.
- Led the full lifecycle management, including construction, testing, and deployment of applications to the Google Play Store.
- Created functional flows and implemented high-fidelity prototypes in Figma.

## SKILLS

**Programming Languages:** Kotlin, Java, TypeScript, JavaScript.

**Android:** Android SDK, Android Jetpack, Jetpack Compose, XML, AndroidX, Material Design, ViewBinding.

**Architecture:** MVVM, MVI, Clean Architecture, Multi-Module Architecture, SOLID, Dependency Injection (Koin).

**Asynchronous Programming:** Coroutines, Flow, StateFlow.

**Networking:** REST, Retrofit, GraphQL, OAuth 2.0, JWT.

**Database:** Room, SQLite, Offline-first.

**Testing:** JUnit, Espresso, Robolectric, Appium, Cucumber, BDD.

**Tools:** Git, GitHub, GitLab, Jenkins, CI/CD.

**Monitoring:** Firebase Crashlytics, Firebase Analytics.

## EDUCATION

---

### Bachelor's Degree in Mathematics

Universidade Federal Rural de Pernambuco (UFRPE)

Jul 2017 – 2025

- Strong foundation in analytical thinking, statistics, and problem-solving
- Experience with Python and R for data analysis and computational tasks
- Applied mathematical concepts to real-world problems and algorithmic thinking
- Contributed to the Pymat project (<https://pymat.com.br>), bridging mathematics and computer science using Python

## LANGUAGES

- Portuguese: Native
- English: Professional Working Proficiency (C1)
- Spanish: Basic

## CERTIFICATIONS

- Cloud
  - AWS Certified Cloud Practitioner (CLF), Jun 25, 2023
- AI & LLMs (Anthropic Claude)
  - Building with the Claude API — Apr 2026
  - Claude Code in Action — Apr 2026
  - Introduction to Agent Skills — Apr 2026
  - Introduction to Model Context Protocol — Apr 2026
  - Claude Certified Architect – Foundations — Currently studying
